

# FEE SCHEDULE

## APPLICATION FEE

HFAC charges an Application Fee for operations submitting an application for Initial Certification. Operators must also pay the Application Fee each time they submit their Application for Renewal of Certification in order to cover administrative costs associated with processing the application. The application fees are as follows:

Date application submitted	Fee
<b>Best Rate!</b> For <u>new applications</u> or for renewals postmarked <u>60 days or more</u> before the expiration date on certificate	\$75
Postmarked 59 - 30 days before expiration date on certificate	\$125
Postmarked less than 30 days or longer after the expiration date certificate	\$300

## INSPECTION FEES

An Operation's Inspection Fee covers the cost of one full inspection per year. Follow-up inspections in the same year will only be conducted if a problem is identified which required further on-site investigation. Operations requiring follow-up inspections will be charged the regular inspection fee to cover the cost of the inspector's time as well as the actual costs (travel, food, lodging) incurred by HFAC to conduct the inspection.

**Farm Inspections:** The HFAC fee for conducting inspections of a farm is \$700/day/Inspector.

*Shared inspection fees:* Producers in close geographic proximity may split the cost of inspection fees if inspections are scheduled so that the inspector can visit the operations during one trip. In this case, the fee paid by each farm or ranch is calculated by multiplying the daily inspection fee by the number of days required to complete all of the inspections, divided by the number of farmers and/or ranchers participating in the shared inspection.

**Processor, Product Manufacturing Operations (PMO), Pooled Product Operators (PPO), Slaughter and Handling Facility:** The HFAC fee for conducting inspections of a Product Manufacturing Operation (PMO), Pooled Product Operator (PPO), Processor, Sales Office or Slaughter is \$800/day/facility/inspector.

Subsidized inspection fees for small operations: Because HFAC receives contributions from the public and humane organizations, some funding may be available for subsidization of inspection fees for small operations, as defined in the chart below.

Size of Operations Eligible for Subsidized Inspection Fees	
Species covered by the certification application	Number of animals being certified is not greater than:
<b>Beef Cattle</b>	50 head
<b>Broilers</b>	100 head
<b>Dairy</b>	30 head
<b>Goats</b>	50 head
<b>Layers</b>	100 head
<b>Pigs</b>	50 head
<b>Sheep</b>	70 head
<b>Turkeys</b>	70 head
<b>Young Dairy Beef</b>	30 head

After successfully passing its Initial Review of the application for certification, an eligible operation may request funds to fully or partially cover its inspection fee. The request is made by submission, to the HFAC office, of a written statement of the reasons that the operation is unable to afford to pay the normal inspection fee.

The Executive Director of HFAC will review the information, determine whether the operation fits the eligibility requirements, and make the decision on whether the subsidy will be granted. Inspection subsidy funds are allocated on a first come, first served basis. If a farm is eligible for this program, the inspection will be scheduled only when an HFAC inspector is in the area of the vicinity of the farm.

## CERTIFICATION FEES

HFAC certification fees are payable on ALL products that are licensed for sale as Certified Humane® by a certified producer or farm. Therefore, monthly fees (based on the following chart) should be calculated and on all licensed products, regardless of the type of labeling used.

## PAYMENT OF CERTIFICATION FEES

Certified operations must pay certification fees to HFAC on a monthly basis. At the discretion of the Executive Director, operations may pre-arrange quarterly payments.

Because PMOs must purchase products that are already certified, the certification fees are already paid by the producers and the benefit is increased sales of their products. The only cost to a PMO is the application and inspection fees.

## DELINQUENT CERTIFICATION FEES

If a certified operator fails to pay certification fees in a timely manner, the Executive Director contacts the certified operation to arrange a written payment schedule. If the operator does not cooperate in development of the payment schedule and/or paying fees in a timely manner, certification will be suspended.
