## PRODUCER AGREEMENTS

I/we \_\_\_\_\_, the duly authorized representative(s) of the operation described in this application, hereby affirm that all information supplied in this document and any attachments is true and accurate.

I affirm that I have read and understood the Humane Farm Animal Care (HFAC) standards applicable to my operation. I affirm my commitment to abide by the HFAC certification policies, procedures and standards (§8.2.1.b.). No prohibited products or practices have been used, applied, or otherwise allowed to compromise the integrity of the products sold by me. I understand that failure to comply with the standards or giving false information may result in revocation of the certification of my operation.

I understand that the operation will be inspected annually and may also be subject to unannounced inspection and/or sampling for residues at any time. I agree to report any significant changes to the Farm Questionnaire to HFAC and to supply any information needed for evaluation of products to be certified (§8.2.1.b.).

I understand that submission of this application does not guarantee or imply certification. I give permission for HFAC, staff, committee members or field inspectors to visit my farm and examine fields, buildings, animals, files, documents and records, including but not limited to financial data and tax returns. I understand and agree that no HFAC staff member, board member, committee member, inspector, consultant, subcontractor, or volunteer shall be held liable or responsible for any amount in excess of the certification fees paid. I give my permission for HFAC to use subcontractors to perform tasks released to the process of certification (ISO §4.4.c.).

I give permission for HFAC to release information from my file to other recognized certification organizations for purposes of document review. I understand that HFAC will obtain confidentiality statement from the requesting certifier before releasing any information.

All information provided in this application will be held in strict confidence and will be used by the inspector, office staff and certification committee members for certification purposed only. The above individuals have disclosed potential conflicts of interest and are bound by confidentiality agreements. HFAC has my permission to obtain information, documents, or materials related to certification, suspension of certification, or revocation of certification from other certifiers.

**PLEASE ENSURE THAT A UNIVERSAL APPLICATION FORM FOR THE PROCESSING LOCATION IS COMPLETED, SIGNED, AND SUBMITTED WITH THIS APPLICATION. FAILURE TO PROVIDE THIS INFORMATION MAY CAUSE DELAY IN SCHEDULING YOUR INSPECTION.**

# Application Instructions

Please complete and return the following to Humane Farm Animal Care (HFAC):

1. Application(s): e-mail to [info@CertifiedHumane.org](mailto:info@CertifiedHumane.org) or mail to: Humane Farm Animal Care, P.O. Box 82, Middleburg, VA 20118.
2. Application Fee of \$75.00 should be mailed to: Humane Farm Animal Care, P.O. Box 82, Middleburg, VA 20118.

Completion of the Application provides HFAC with the following information:

1. **Animal Health Plan** (this should be regularly reviewed in conjunction with a veterinarian).
2. **Bio-security Policy** (to limit the introduction and/or spread of disease onto and within the production unit).
3. **Nutrition Plan:** Covers all stages of production. What is fed and to which group. In conjunction with regular body condition scoring/weighting to monitor outcome of nutritional management. Safe, hygienic storage of all foodstuffs, the potential to trace back to source.
4. **Casualty Stock Management Policy:** to safeguard the welfare of any sick or injured animal requiring humane destruction on-farm and to protect the health interests of the consuming public. Detailed guidelines for Euthanasia of Poultry are available through UC Davis Center for Animal Welfare. It is recommended that farm casualty policy adopt the relevant guidelines.
5. **Disposal of Fallen Stock Policy:** to ensure the safe, hygienic and legal disposal of animal carcasses. The plan must cover stock dying as a result of natural causes or following on-farm casualty slaughter, and includes fetal material. It must be done in such a way as to not endanger other livestock or humans; such material must not be accessible to dogs and predators. The method must encourage rapid decomposition and destruction of infectious agents and not result in fly or odor nuisance: A number of options are available:
  - a. Disposal off farm via dead hauler, rendering company, licensed landfill site, licensed incinerator.
  - b. On farm burial or composting, if legal.
6. **Cleaning and Disinfection Policy:** cleaning and disinfection routines, including chemicals used to assist in the reduction of transmission of infectious agents. This plan must be an integral part of the Bio-Security Policy. The plan should consider:
  - a. Building and equipment;
  - b. Livestock, people, pests and moveable equipment;
  - c. Feed and water.
7. **Pest Control Policy:** Manage levels of potentially harmful vermin and pests (rodents, birds and flies) in order to keep to a minimum and avoid the risk of disease spreading to humans and animals, damage to buildings and services, and contamination and spoilage of feed.

8. **Farm Waste Management Policy:** Waste materials must be removed from animals accommodation on a regular basis and disposed of properly. Waste materials of any nature must not be a risk to animal health or compromise the control of pets and vermin. The plan will also include the management of clinical and pharmaceutical waste.
9. **Emergency Action Plan:** Instructions to staff in the case of fire, flood, freeze or drought. Provision of references for emergency services. Emergency water and feed supplies and necessary equipment.
10. **Stock-person Competency demonstrated,** and if possible validated, in husbandry methods (castration/disbudding, etc.) records of all staff with the responsibility for livestock, identifying livestock experience and any formal/informal training completed.
11. **Records:** Records periodically examined by vet/and or others (as an aid to management) provide the verification that objectives of the plan are being met or to prompt adjustments to the plans to ensure that objectives are realized in the future.

**You must be in the position to show the HFAC Inspector the following at his/her visit to the Unit:**

Death/mortality records with reasons for mortality (when known)

Culling records and reasons for culling

Medicine records including reason for use and withdrawal/safe sale date

Feed and feed ingredient records for previous year

Record of vital automatic equipment maintenance checks

List of routine farm maintenance checks

Training and/or experience of all staff involved in the livestock enterprises

Demonstrate safe, hygienic, well-maintained buildings/environment, handling equipment and automatic equipment.
